

CIRRICULUM VITAE

PERSONAL DATA

NAME: KAPILA J. PARIKH, M.D.

ADDRESS: NEW YORK METHODIST HOSPITAL
506 6TH Street
Brooklyn, N.Y. 11215
(718) 780-3677

MARY IMMACULATE
ST. VINCENT'S CATHOLIC MEDICAL CENTERS
152-11 89TH Avenue
Jamaica, NY 11432
(718) 558-2050
(718) 558-2022

LICENSURES:

BOARD OF CERTIFICATION: Radiation Therapy – June, 1980
E.C.F.M.G: June 1974
LICENSES: New York, 1980
New Jersey, 1982

EDUCATION:

1969 – 1974 Medical College – University of Bombay
Bombay – India

POSTGRADUATE TRAINING:

1974 Rotating Internship
University of Bombay
Bombay, India

1975 Resident, Internal Medicine
University of Bombay
Bombay, India

KAPILA PARIKH, M.D.

Page 2

1976 – 1979 **Resident, Radiotherapy**
University of Illinois
Chicago, Illinois

1979 – 1980 **Chief Resident, Radiotherapy**
The Methodist Hospital
Brooklyn, New York

HOSPITAL APPOINTMENTS:

ATTENDING

1981 – PRESENT **New York Methodist Hospital**
Brooklyn, New York

1981 – 2006 **Maimonides Medical Center**
Brooklyn, New York

2004 – PRESENT **Mary Immaculate**
St. Vincent’s Catholic Medical Centers
152-11 89th Avenue
Jamaica, New York

1985 – PRESENT **CLINICAL INSTRUCTOR**

SUNY, Health Science Center at Brooklyn
Brooklyn, New York

1994 – PRESENT **CLINICAL ASSISTANT PROFESSOR**

Cornell University Medical College
New York, New York

INSTITUTIONAL RESPONSIBILITIES:

Resident’ teaching & Participation

In daily/weekly conferences **35%**

Patient Care **50%**

Cancer Activities & Radiation Safety
Committees **15%**

KAPILA PARIKH, M.D.

EXPERIENCE AND SPECAIL INTERESTS:

Brachytherapy

SOCIETIES:

**American Society of Therapeutic Radiology
New York Roentgen Society
ASCO**

MAJOR ONGOING RESEARCH INTEREST:

Co-P.I. The treatment of Prostatic Carcinoma with external radiotherapy and sonographically directed temporary interstitial implant.

Co-P.I. Different Measured dose parameters to pelvic organs and its relation to morbidity in treating prostate cancer.

Co-P.I. CCOP – ECOG Protocols

Co-P.I. CCOP – NSABP Protocols

Co-P.I. CCOP – RTOG Protocols

P.I. – Role of concomitant combination chemotherapy with hyperfractionated radiotherapy and locally advanced, non-resectable (stage IIIA, IIIB) non-oat cell carcinoma of the lung protocol: CP-P.I.

PAPERS:

- 1. K. Parikh, S. Rafla, E. Youssef, H. Selim, O.J. Glidewell: Patterns of Failure of Endometrial Cancer, International Journal of Radiation Oncology, Biology, Physics, October, 1987**
- 2. K. Parikh, S. Ralfa: Role of Adjuvant Radiotherapy in Management of Renal Cell Carcinoma. International Journal of Radiation Oncology, Biology, Physics, 6:1418.1980.**
- 3. K. Parikh, S. Rafla, E. Youssef, M. Tchelebi, A. Tchelebi: Role of combined Chemotherapy 5FU and Mitomycin with Hyperfractionated (twice daily) Radiation Treatments for Advanced Pelvic Tumors, presented at SUNY and American Cancer Society Meeting: Clinical Application of Concomitant Infusion Chemotherapy and Radiation Therapy, April, 1989.**

KAPILA PARIKH, M.D.
